

# Random Images Prompt Guide:

## PicLumen

---

This guide presents an activation prompt for ChatGPT, optimized to generate text prompts for random images based on a narrative, using tools like PicLumen.

### Command for ChatGPT

---

Now I need you to generate [QUANTITY] text prompts for creating images based on the video story, in [LANGUAGE] version.

**Instructions:** - Prompts should freely symbolize any moment, atmosphere or emotion from the story, even if they don't exactly follow the order or literal content of the script.  
- Create rich and symbolic visual descriptions that convey emotional state, spirituality, conflict, redemption, light vs. darkness, location, or other central themes following the narrative. - Prompts should work well in systems like Midjourney, DALL · E, Leonardo AI, PicLumen or similar.

**Required format:** - Don't number the prompts, but follow one per line/paragraph, ending with period - Each prompt in a single line, in [LANGUAGE], ready to copy and paste directly.

Before starting, confirm if you understood?
